ALEKSANDAR CVETANOVSKI

SENIOR LARAVEL DEVELOPER | PHP · WEB APPLICATIONS · APIs

alex-web.mk · LinkedIn · GitHub · GitLab
North Macedonia

PROFESSIONAL PROFILE

Laravel and PHP developer focused on building maintainable web applications, APIs, e-commerce experiences, CMS platforms, and business-oriented software. Works across backend implementation and modern frontend stacks, with an interest in clean architecture, reliable integrations, automated quality checks, and practical AI-enabled workflows. Portfolio work spans cybersecurity, online learning, marketplaces, commerce, and corporate websites.

TECHNICAL SKILLS

Backend	PHP 8.x, Laravel, REST APIs, authentication, integrations, application architecture
Frontend	Blade, Vue.js, Inertia.js, Livewire, JavaScript, Tailwind CSS 4
Data & CMS	MySQL, PostgreSQL, Statamic, Filament, content-driven applications
Quality & Delivery	PHPUnit, PHPStan, Git, Docker, Linux, Composer, deployment troubleshooting
AI & Tooling	OpenAI integrations, AI-assisted development, Model Context Protocol (MCP)

SELECTED PROJECTS

Adminium — Open-source Laravel admin starter kit

Reusable admin-panel starter project with a modern Tailwind-oriented interface and Docker-based development workflow.

IKSNETS — Cybersecurity company website

Cybersecurity-focused web presence with multilingual content requirements and attention to privacy, cookie consent, and anti-bot protection.

CODYSSEY — Learning platform for coders

Online learning platform focused on coding and developer education.

DEJANSIDOR — Web application

Client project featured in the portfolio showcase.

CakuleFlyCraft — E-commerce shop

Online commerce project for fly-fishing products and craft-related offerings.

Cakulet — Marketplace platform

Marketplace project listed in the portfolio, representing multi-vendor or catalog-oriented commerce work.

MIRA — Marketplace platform

Marketplace platform included in the project showcase.

IND Art — Woodworking business website

Business website presenting a woodworking company and its work.

Becutan — Baby care company website

Corporate web presence for a baby-care brand.

AS Design — Business website

Client website project referenced in the portfolio, with a public testimonial highlighting professional collaboration.

ADDITIONAL DEVELOPMENT & OPEN-SOURCE WORK

Filament 5 Admin — Laravel admin panel project

Public repository exploring a Laravel and Filament-based administration experience with a modern full-stack setup.

Musicar.rs — Fly-fishing magazine rebuild

Content-driven website project being rebuilt with Laravel Blade and Statamic 6 using the Eloquent driver. Content areas include articles, events, fish, partners, and fishing waters.

Parcel crop satellite monitoring

Application concept and implementation work using a modern Laravel stack with Inertia, Vue, Tailwind CSS, and PostgreSQL/PostGIS-oriented geospatial data.

ENGINEERING APPROACH

Prioritizes readable and maintainable code, clear separation of responsibilities, testing, static analysis, and practical documentation. Comfortable investigating issues across application code, dependencies, databases, integrations, and deployment environments. Uses AI-assisted development tools pragmatically while keeping implementation quality and maintainability in focus.

PROFESSIONAL EXPERIENCE

Laravel / PHP Development | Portfolio and project work

Professional focus since 2020, based on available portfolio information. Work areas include custom web applications, CMS and administration interfaces, API integrations, e-commerce and marketplace development, debugging, and deployment support. Employer names, exact dates, education, certifications, and quantified business outcomes were not available to verify and have not been invented.

ONLINE PROFILES

Portfolio and project showcase · GitHub · GitLab · LinkedIn

Before submitting, add a professional email address, optional phone number, verified employment history, education, and certifications. For each project, keep only technologies and responsibilities you can confidently discuss in an interview.
